

## Seizure control and beyond

### The Impact of Uncontrolled Seizures

If you still don't have control over your seizures, ask yourself these questions. Click "yes" or "no" for each question and then click the link at the end of the quiz to learn your results.

#### Are you feeling well?

- |   |     |    |
|---|-----|----|
| Have you been taking anti-seizure medications for more than two years?                  | Yes | No |
| Are you taking more than two or three anti-seizure medications?                         | Yes | No |
| Do you feel that your overall health has suffered as a result of your seizure disorder? | Yes | No |

#### Are you doing well?

- |   |     |    |
|---|-----|----|
| Do you think about your seizure disorder every day?   | Yes | No |
| Are drug therapies making you feel tired or affecting your memory and ability to think clearly? | Yes | No |

#### Are you living well?

- |  |     |    |
|--|-----|----|
| Does your lack of control over your seizures greatly restrict your choices in life?                                | Yes | No |
| Does your seizure disorder affect your ability to perform normal daily activities like working or going to school? | Yes | No |
